MAKE A PINHOLE CAMERA

INSTRUCTIONS:

1. Print this document on a sturdy Letter size paper.
2. Cut out the outer white part.
3. Cut out the inner white square.
4. Cut a 5.5cm x 5.5cm square piece of tracing paper.
5. Paste the tracing paper so that it covers the white hole.
6. Using a sharp pin make a tiny hole as illustrated.
7. Fold along the dashed dark gray lines to form a cube. Make sure that the inner walls of the cube are black.
8. Apply glue to the flaps on the back side and paste them to the sides of the cube.
9. If necessary, tape the edges of the cube in order to hold it firmly.
